

Learning about Essential Tremor: The Diagnosis Process and Treatment Options

You're invited to attend a special IETF educational seminar on essential tremor (ET). ET is the most common of all movement disorders, affecting approximately 10 million Americans. At this seminar, you will learn about the diagnosis process, commonly prescribed medications, surgical options, support groups and more.

Saturday, March 3, 2012

Program: 10:00 a.m. - Noon

Check-in begins: 9:15 a.m.

**Seating is limited for this free, one-time event.
You must register by February 24 to attend.**

The University of Kansas Edwards Campus
